RetailFootfall™

People counting system specifically designed for the retail industry.

1

Highest Accuracy

FootfallCam 5D Pro™ - Up to 99.9% Accuracy

The market leading people counting device with the advanced counting technologies:

5D People Counting Technology™

- 3D Stereo Vision people counting
- Time-of-Flight sensing
- AI Video Analytics

WiFi Analytics

Measures average visit duration, visit frequency, traffic outside of the store

Staff Exclusion

Counting customers, not staffs, Patent-pending discreet staff exclusion method

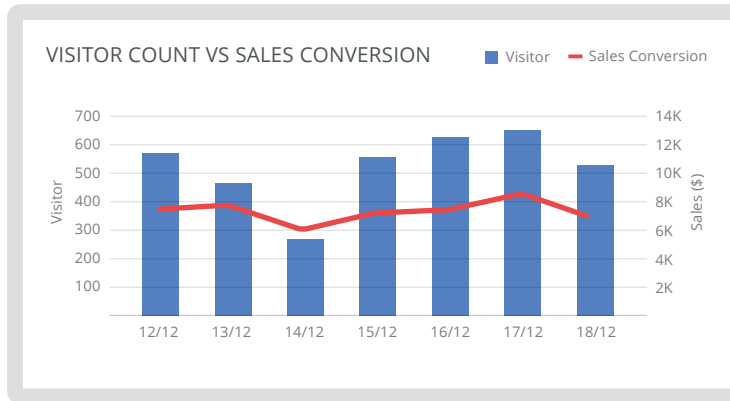

FC-F3DP02

2

Footfall Management Workspace

RetailFootfall™ Software Modules. Available **10x Retail metrics**, **8x Retail workflow**, **5 x Retail reports** to helps store managers, marketing managers, operation managers and CEO to make better decisions.

Sales Tracker

Analyse the unique profiling of each store and make customised responses, to improve the sales conversion.

Marketing Effectiveness

Determine the success rate of a marketing campaign.

Staff Planning

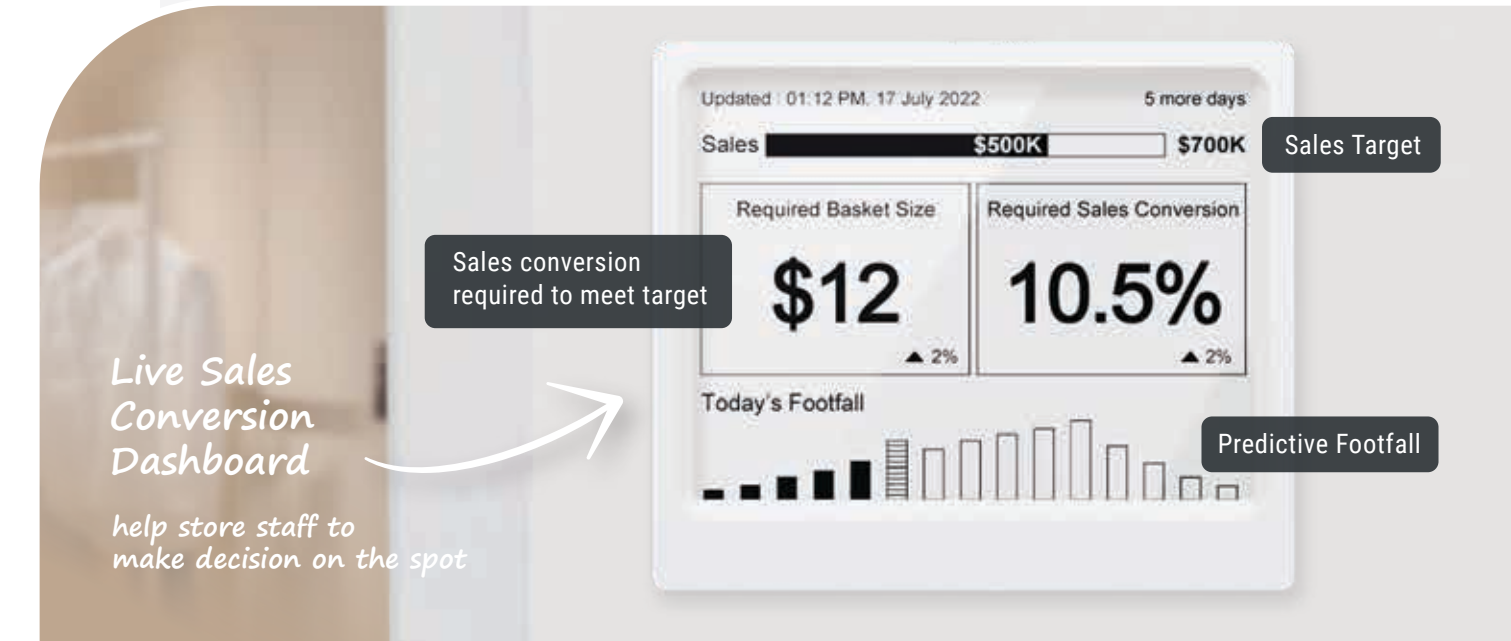

Customise the target staff ratio based on each store's visitor count.

STORE PERFORMANCE BENCHMARKING

Store Name	Visitor Counts	Sales Conversion (%)	Sales Rank
Harrow	2340	22.83 ▲ 1%	1
Liverpool	3821	21.12 ▲ 3%	2
Metro	2658	20.54 ▲ 2%	3
Bradford	2598	19.71 ▼ 2%	4
Edinburgh	3755	18.54 ▲ 4%	5
Bluewater	2035	13.74 ▲ 1%	6
Newport	1977	12.14 ▼ 1%	7
Cambridge	2745	11.56 ▲ 2%	8
Basildon	1823	10.23 ▲ 1%	9
Camberley	1820	9.89 ▼ 2%	10

Store Location Analysis

Perform deep analysis and be able to have better visibility on each store performance level.

3

Actionable Staff Dashboard

4.2" E-paper display, live sales conversion and footfall tracker, up to a minute data refresh to optimise the sales conversion. Configurable business rules to standardise retail operations.

Allow store manager to monitor the sales performance in real time and make on-the-spot business decision. Each staff is assigned to the right tasks based on the live visitor count and the transaction count.

Key Features

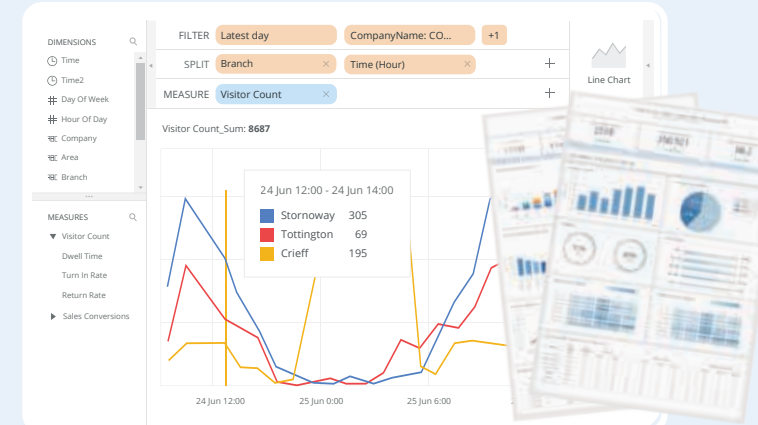

Secure and Privacy

Security and privacy is our highest priority. **GDPR compliance.**

Cloud or On-Premise Server

- **Cloud** or **On-Premise** software available
- Multi user account management with **AD integration** and **MFA**
- Open Architecture - **API integration** with other business systems

Role-Based Account Management

Individual user accounts can be setup for team members and assign access rights accordingly.

Fault Alerts

Monitor all sensors recurringly and send an automated email alert if any faults are found. Proactive yet manageable approach, low-maintenance solution.

Data Integrity Review

The Data Integrity Report allows users to monitor data discrepancies and site changes.

Backup / Disaster Recovery

FootfallCam server will re-aggregate the raw data stored in counter level and store the re-aggregated data in the server.
